BIOLOGIST | CLINICAL RESEARCH & CLINICAL TRIALS

EDUCATION

- **Master's Degree in Access to the Pharmaceutical, Biotech and Healthcare Technology Industry - Clinical Trials Certification**

FarmaLeaders talento
2026-2027

- **Master's Degree in Biological Hospital Specialities**

Universidad a Distancia de Madrid
2024-2026

- **Bachelor's Degree in Biology**

Universidad de Córdoba
2020-2024

SKILLS

Clinical Research · Good Clinical Practice · Project Coordination · Scientific Documentation · Microsoft 365 · Excel · Canva · Notion · HTML/CSS & web development · GitHub · Scientific databases · Literature search tools · Science Communication

LANGUAGES

- Spanish (native)
- English (C1)
- French (A2)

ADDITIONAL TRAINING

- ICH-GCP E6 (R3) - The Global Health Network
- Python - Stanford University
- Pharmaceutical Marketing - FarmaLeaders Talento
- Medical Affairs Department - FarmaLeaders Talento

PROFESSIONAL SUMMARY

Biologist with experience in scientific research and technology transfer, currently specializing in the pharmaceutical industry and Clinical Trials.

Strong scientific background combined with skills in communication, organization and teamwork, seeking to contribute to clinical research and drug development.

PROFESSIONAL EXPERIENCE

- **SCIENTIFIC MONITOR**

Cienciaterapia | September 2026 - Present

- Support scientific and educational activities within the organization
- Assist with the planning and coordination of science-related activities and initiatives.

- **FOUNDER & SCIENCE COMMUNICATOR**

Con B de Biología | 2024 - Present

- Founded and developed a science communication project focused on biology, biomedical research and scientific innovation.
- Develop and manage science-based content, translating complex scientific information into clear and engaging communication for broad audiences.

- **INNOVATION AND TECHNOLOGY TRANSFER TECHNICIAN**

IMIBIC | June - September 2023

- Supported technology transfer activities within a biomedical research environment
- Worked with scientific and patent-related information, gaining insight into intellectual property and the translation of biomedical research into real-world applications

- **UNDERGRADUATE RESEARCHER - EPIGENETICS & DNA REPAIR**

Universidad de Córdoba | 2022 - 2024

- Developed practical experience in molecular biology, scientific methodology and research documentation
